"I am pleased to report that Monroe is receiving assistance from DNR's Puget SoundCorps crew," said City of Monroe Mayor Geoffrey Thomas. "The Urban Forestry Restoration Project provides restoration and protection of our community's urban forest tree canopy and wetland areas."

The Urban Forestry Restoration Project is offered by the Washington State Department of Natural Resources (DNR) Urban and Community Forestry Program to provide Puget SoundCorps teams to communities throughout the Puget Sound region to assist their urban forestry efforts. Through good urban forestry management, healthy trees improve quality of life, help communities manage stormwater runoff and improve air and water quality.

Puget SoundCorps is part of the broader Washington Conservation Corps program administered by the Washington State Department of Ecology.
